

Do we have an end-to-end Enterprise Workforce Management Solution for Public Transport Systems

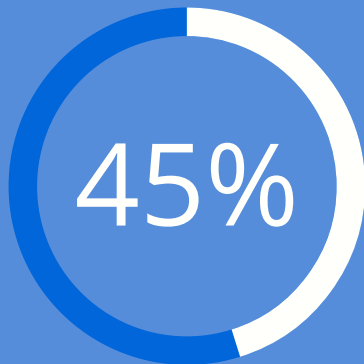

Operating under tight budgets the Public Transport Industry struggles to balance quality services with finances. Efficient Workforce Management can be a key differentiator. Can technology act as an enabler?

Challenges in the Journey

Efficient Workforce Management plays a vital role in enhancing operational efficiency and keeping finances in check. Adoption of innovative and sustainable technological solutions to transform Workforce Processes is the need of the hour for Public Transport Systems.

What Are The Pain Points?

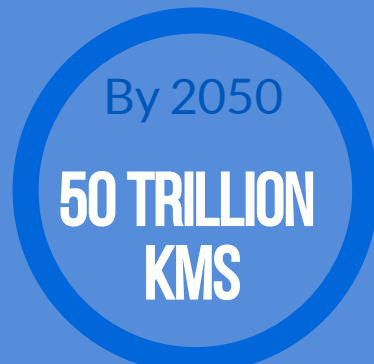

Tight Budgets

Is the average fare revenue coverage for OPEX. Funding is low.

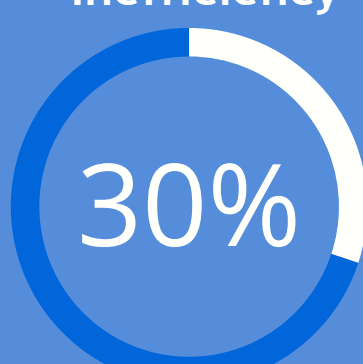

Demand Growth

Urban mobility rise require capacity uplift initiatives.

Operational Inefficiency

Errors reported in capacity planning due to lack of automation.

Requirement

t3 - Workforce Financial Forecasting

t3 - Forward Demand Forecasting

t3- Advanced Operations Management

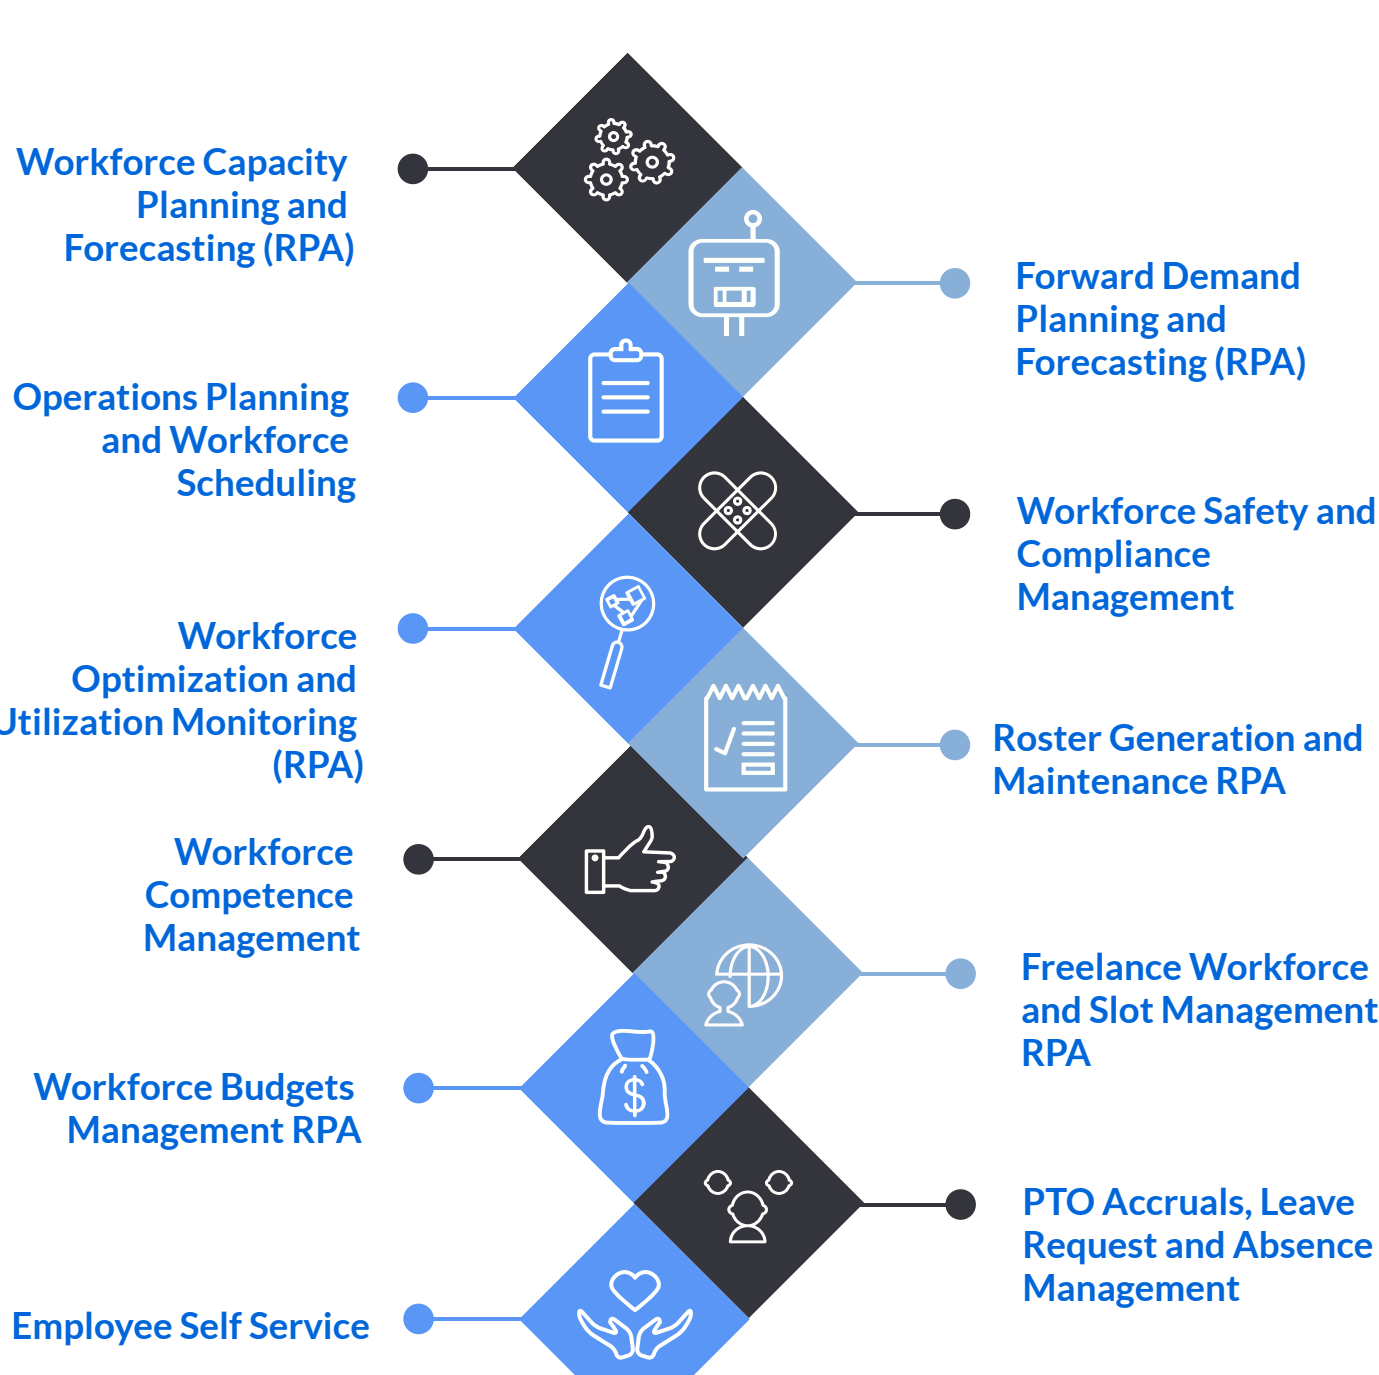

And Some More....

- Legacy Systems in Use - Accessibility, scalability, reliability and performance challenges
- Lack of Visibility - Disparate practices and segregated systems do not lend to transparency and decisions are made based on the incomplete picture
- Low Level of Employee Engagement - Lack of transparency, indulgence in repetitive and low-value-adding activities add to the challenges in having a motivated workforce
- Liable to Changing Compliance and Regulations - Frequently adapting to new compliance and rules adds to operational complexity

How Can T3 Make It A Smooth Ride For You

End-to-End Enterprise Workforce Management Solution for Public Transport

T3 : Benefits for Public Transport

1
